

**AGREEMENT BETWEEN THE ADMINISTRATIONS OF  
FRANCE AND TRINIDAD AND TOBAGO ON THE USE OF  
THE VHF BAND (174-216 MHz) AND THE UHF BAND (470-698 MHz)  
FOR TERRESTRIAL BROADCASTING**

June 2020

This Agreement is made this <sup>25<sup>th</sup></sup> day of June 2020 between **AGENCE NATIONALE DES FRÉQUENCES** (hereinafter referred to as "ANFR") on behalf of the administration of France with responsibility for the spectrum management in the French overseas territories on the ONE PART and the **TELECOMMUNICATIONS AUTHORITY OF TRINIDAD AND TOBAGO** (hereinafter referred to as "TATT") with responsibility for the spectrum management in Trinidad and Tobago on the OTHER PART.

## 1. INTRODUCTION

Following the 4th ITU Regional Frequency Coordination Meeting on the use of the VHF band (174-216 MHz) and the UHF band (470-806 MHz) from 11 to 14 September 2018 held in Belize, ANFR and TATT being the respective authorised representatives of the administrations of France and Trinidad and Tobago with responsibility for spectrum management in their respective administrations, (hereafter referred to together as the "Signatories" or individually as "Signatory"), have concluded this Agreement, under Article 6 of the Radio Regulations.

## 2. GENERAL CONDITIONS

The Signatories agree as follows:

- a. The VHF and UHF Reference lists comprise the Digital Terrestrial Television (DTT) assignments set out in Annex 1 for France and in Annex 2 for Trinidad and Tobago. This Reference lists were agreed at the 4th ITU Regional Frequency Coordination Meeting on the use of the VHF band (174-216 MHz) and the UHF band (470-806 MHz), from 11 to 14 September 2018, Belize City, Belize.
- b. The assignments technical characteristics of the Reference lists refer to the final compatibility iteration 40 for the UHF band and the final compatibility iteration 27 for the VHF band, and are reproduced in Annex 1 and Annex 2.
- c. The ITU's Reference lists dealing with these assignments are maintained by the ITU and can be found at the following URL:  
<https://www.itu.int/en/ITU-R/terrestrial/broadcast/Americas/Pages/default.aspx>.
- d. Each assignment in the Reference lists may be put into operation and notified to the Master International Frequency Register (MIFR). Upon such notification the Signatory shall inform the ITU to suppress these notified assignments from the Reference list.
- e. Temporary assignments set out in Annex 2 may be put into operation, however such Temporary assignments shall not be notified to the MIFR.
- f. TATT agrees to inform the ITU to suppress Temporary assignments from the UHF Reference list when they are no longer used and to inform the ANFR.
- g. Additional DTT assignments shall be coordinated using the procedure defined in Clause 3. The DTT assignments technical characteristics shall be registered in Annex 3 for ANFR and Annex 4 for TATT, after approval of the Signatories. These additional agreed assignments may also be put into operation and notified to the MIFR.
- h. The Signatories may convert any agreed DTT assignment, into several **Digital Audio Broadcast (DAB)** assignments by maintaining an equal power spectral density and duly inform the other Signatory of such conversion.
- i. Any new **Analogue Television Broadcasting** assignment must be coordinated and formally agreed by the other Signatory before it is registered in the MIFR.
- j. The Signatories agree to remove from the MIFR the assignments not in operation described in Annex 5 for France and in Annex 6 for Trinidad and Tobago.

### 3. COORDINATION PROCEDURE

The Signatories agree to use, for any new coordination request, the ITU software tools developed by the ITU Radiocommunication Bureau for parts of Region 2 including Central America and Caribbean countries. These tools are **CA\_compat** for compatibility analysis and **CADisplay** for analysing the calculations related to the compatibility analysis for television.

The evaluation of the interference field strength will be based on the Reference list (**CA\_compat** taking into account existing analogue and digital television assignments as well as frequency assignments to other primary services recorded in the MIFR) plus the requested assignments and assignments of Annexes 3 and 4 that are not yet recorded in the MIFR. If the Interference Margin (as defined in Clause 4) exceeds the limits set out in Clause 4, the responsible Signatory will send a coordination request containing technical files following the ITU format to the other Signatory (and to other countries if necessary).

The Signatory receiving the request agrees to acknowledge the request within a period of 2 weeks from receipt and to provide its answer within 3 months.

If no answer is received within this period, the request is considered as refused. After this 3 months period, the Signatory sending the coordination request may send a reminder to the other Signatory requesting a decision. If no decision is communicated within 40 days after the date of dispatch of the reminder, it shall be deemed that the Signatory receiving the request has agreed to it.

### 4. INTERFERENCE MARGIN

The Interference Margin is defined and explained in the following ITU document: **INFO 4 - Coordination margins.pdf<sup>1</sup>**.

The Signatories agree to comply with the three following criteria.

- a. The Interference Margin does not exceed a **limiting** (also identified as maximum acceptable) **margin of 4 dB** with respect to digital TV assignments recorded in the MIFR and the affected digital requirements,
- b. The Interference Margin does not exceed a **limiting margin of 0.5 dB** with respect to affected analogue TV assignments recorded in the MIFR, and
- c. The Interference Margin does not exceed a **limiting margin of 1.0 dB** with respect to affected assignments of other primary services recorded in the MIFR.

### 5. REVIEW AND FOLLOW-UP OF THE AGREEMENT

Any Signatory may request a review of this Agreement. Any part of this Agreement may be revised in light of future developments, i.e. the introduction of new technologies and experience in the operation of the networks covered by the Agreement.

<sup>1</sup> [https://www.itu.int/en/ITU-R/terrestrial/broadcast/Americas/Documents/Info/INFO-4-E\\_margins.pdf](https://www.itu.int/en/ITU-R/terrestrial/broadcast/Americas/Documents/Info/INFO-4-E_margins.pdf)

## 6. AMENDMENT

Any Signatory may, by written communication addressed to the other Signatory, propose amendments to this Agreement and request the convening of a meeting to consider proposed amendments.

Amendments to this Agreement shall be incorporated in this Agreement upon written approval of all Signatories.

Amendments to the Reference lists shall be effected through a simplified procedure set out in Clause 2(c), 2(d) or 2(f).

Where a revision to an Annex herein is adopted by consensus, it shall be incorporated and shall take effect from the date of its adoption or from such other date as may be specified in the revision.

## 7. WITHDRAWAL

Any Signatory may withdraw from this Agreement at the end of a calendar month by giving notice of its intention at least six months in advance. A declaration to that effect shall be addressed to the other Signatory.

Frequency assignments made within the framework of this Agreement prior to the date of entry into force of the withdrawal shall remain valid and be protected according to their status.

## 8. LANGUAGE OF THE AGREEMENT

The original text of this Agreement exists in English in two (2) duplicate originals.

## 9. DISCLOSURE

Each Signatory administration can make public parts or the whole of the Agreement.

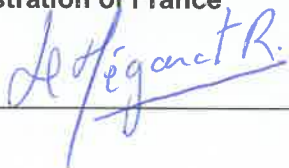

## 10. DISPUTE RESOLUTION

In case any dispute or difference shall arise between the Signatories hereto touching or relating to any matter arising under this Agreement, the Signatories shall meet and attempt in good faith to resolve any such dispute or difference promptly through amicable negotiations. The Signatories agree to use best efforts to utilize generally accepted alternative dispute resolution processes and procedures to resolve disputes and promote the spirit and intent of this Agreement.

## 11. DATE OF ENTRY INTO FORCE

This Agreement will enter into force on the 25<sup>th</sup> day of June 2020 and shall continue unless terminated in accordance with Clause 7.

Signed by **Raphaël Le Hégarat**, Head of Cross-Border Agreement Negotiation Department, for and on behalf of the **AGENCE NATIONALE DES FRÉQUENCES** representing the Administration of France

---

Signed by **Cynthia Reddock-Downes**, Chief Executive Officer, for and on behalf of the **TELECOMMUNICATIONS AUTHORITY OF TRINIDAD AND TOBAGO** representing the Administration of Trinidad and Tobago

---

## Annex 1: Agreed Assignments for the Administration of France

## UHF band (6 MHz channelling):

The following definitions apply for the following table:

- **Permanent:** assignment for use subsequent to temporary assignment.
- **Temporary:** assignment for use during DTT migration period only.

ID	Adm	Area	Site Name	TV Channel	Assigned Frequency (MHz)	Geographic Location	Remarks
1	TRD	TRD	Belle Gardens	14	473	060°35'51" W-11°14'05" N	<b>Permanent</b>
